

Postdoctoral Position in Solid State NMR

A one-year postdoctoral research position (extendable to up to three years) is available at the Westfaelische Wilhelms-University in Münster.

Requirements are a PhD in physics, chemistry or a related field and a detailed knowledge of Solid State NMR techniques.

The research program involves the development and implementation of novel solid state NMR methods for the in situ characterization of chemical and physical processes.

Interested candidates should send an application to
PD Dr. Leo van Wüllen,
University of Münster,
Institute for Physical Chemistry,
Corrensstr. 28 - 30, D48149 Münster/Germany

or contact me via email (wullen@uni-muenster.de).
